Project Name: Riparian View Domestic Water Pipeline Replacement

Project Location: Located in Riparian View, between IRWD Duck Club and Michelson Water Recycling Plant in Irvine, CA (see Exhibit "A")

County: Orange

Description of Nature, Purpose and Beneficiaries of Project:

Irvine Ranch Water District (IRWD) owns, operates and maintains a domestic water pipeline in Riparian View, adjacent to IRWD's Michelson Water Recycling Plant (MWRP) in the city of Irvine. MWRP receives domestic water from an existing six-inch asbestos cement pipe (ACP) located along the slope adjacent to Riparian View. In 2011, IRWD replaced a 600-foot segment of the pipeline with polyvinyl chloride pipe (PVC) from IRWD's Duck Club to an existing air gap facility within the MWRP. Since the end of 2017, the 600-foot segment has failed on several occasions. This project will replace the 600-foot PVC segment and slightly relocate the PVC pipeline within Riparian View.

Reasons why project is exempt:

The replacement of a six-inch domestic water pipeline in Riparian View, between IRWD's Duck Club and IRWD's MWRP includes the replacement of approximately 600 linear feet of domestic water pipeline with a new poly-vinyl chloride (PVC) pipe. State Guideline §15302 provides exemption for the replacement of existing facilities where the new facility will be located on the same site as the facility replaced and will have substantially the same purpose as the facility replaced. Additionally, State Guideline §15282 provides exemption for the installation of new pipeline as long as the project does not exceed one mile in length (i.e. 5,210 ft).

Submission of this form is optional. Local agencies may file this form with the county clerk pursuant to Public Resources Code Section 21152(b). The filing of the notice starts a 35-day statute of limitations on court challenges to the approval of the project under Public Resources Code Section 21167(d). Failure to file the notice results in the statute of limitations being extended to 180 days.
